

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. HOT SPRINGS

OF ARKANSAS,

AND HOW TO GET THERE.

The recent completion of the Hot Springs Railroad between Malvern station, on the St. Louis, Iron Mountain & Southern Railway, and Hot Springs, Arkansas, is a matter of general interest to the thousands of afflicted people in every part of the country, who perhaps have never known by actual experience the benefits arising from the use of those justly celebrated waters. That part of the journey which has heretofore included a stage ride of some twenty-four miles over a rough and tedious road has often proved a serious objection to undertaking the trip, and it is with sincere pleasure that we announce to the public generally the OPENING OF AN UNBROKEN RAIL ROUTE, by which this famous water-cure resort may now be reached.

Much has been said and written concerning the HOT SPRINGS of Arkansas; indeed, the evidence and personal experience of the thousands who have been benefited and cured by the healthful and life-giving influences which NATURE imparts through the agency of the waters which flow there in inexhaustible supply, are a sufficient and satisfactory endorsement of their claims as the greatest and most successful "Natural Healer and Restorer" in THIS COUNTRY if not in the WORLD.

WHAT DISEASES ARE CURED BY THE WATERS.

Rheumatism. Gout, Scrofula, Paralysis, Neuralgia, Ozena, (Catarrh, Sore Throat, Syphilis, acquired or hereditary, in all its different forms and stages: Asthma, Gravel. Diseases of the Kidneys and Bladder, Chronic Ulcers, Ring Worm, Sick Headache, Menstruation Troubles and Sterility. All of these, with many others of a similar nature, are successfully treated, and in most cases PERFECTLY CURED by the proper use of these wonderful waters.

EFFECT UPON THE COMPLEXION.

These springs are the only place known in the world where the bather can feel an absolute certainty of having a faded complexion restored to the bloom of youth, even at an advanced age. Ladies who desire to improve the skin and regain the beauty lost by the use

of cosmetics or from disease, will experience the most marvelous results; and nothing can exceed its effects upon the hair. In many cases persons suffering from partial baldness have had their hair entirely restored.

ALCOHOLISM AND THE OPIUM HABIT.

Both of these dreadful habits are cured here, it being the experience of those who have been in the habit of using either, that they can easily abstain while bathing in and drinking these waters.

NUMBER OF VISITORS YEARLY.

Since 1865 the average number of visitors at the springs has been ten thousand seven hundred per year, and of these about seventy-five per cent. have been radically cured of the diseases with which they were afflicted. A description of the most conspicuous cures effected would seem to border so much upon the field of exaggeration that they cannot be credited save by those who have seen them.

THE CLIMATE AND HEALTH

Of the country about Hot Springs is particularly favorable. The Ozark range of mountains acts as a guard against the extreme cold winds of the North and Northwest, and the climate generally is as mild and delightful as that of Southern Georgia or Northern Florida. Any season of the year is favorable for bathing, and at all seasons the weather will be found pleasant. In summer the mountains shade the valley until after nine in the morning, and again from three o'clock in the afternoon until sunset. The nights are always cool, there being no time when the visitor cannot sleep with comfort under a sheet or blanket. During the day the temperature seldom reaches beyond 93 degrees and never over 95.

HOW TO GET TO HOT SPRINGS.

The only way to get there is by the All-Rail Route: over the St. Louis, Iron Mountain & Southern and Hot Springs Railways.

HOT SPRINGS RATES REDUCED.

Electro Medical

Apparatus, unexampled in utility and perfection of operation.

Gold Medal awarded to

Dr. Jerome Kidder,

at the Fair of the American Institute in the fall of 1875, for the best Electro-Magnetic Machine either here or abroad. The value of this award is shown by the status given to it by the Institute, thus; "XII.—THE MEDAL OF PROGRESS. This Medal (of gold) is to be awarded only for a machine, product or process which shall be adjudged so important as to make a decided advance and great improvement, and be satisfactorily shown to BE A DISCOVERY OR INVENTION OF THE FIRST ORDER OF IMPORTANCE AND VALUE IN SCIENCE OR IN THE INDUSTRIAL ARTS." This is the only genuine gold medal awarded for Electrical Apparatus by the American Institute, and as far as he can learn the only one from any Institute or Society. And in the years 1876 and 1877 the Diplomas for maintained superiority were awarded; the shield of that of 1876 is given below.

The highest award at the Centennial as shown by Certificate published in new Catalogue.

In the year 1876 the Diploma of Maintained Superiority was awarded.

Also, in the year 1877, the American Institute awarded DR. JEROME KIDDER

The Diploma for Maintained Superiority.—For Electro Medical Apparatus.

The Medal of Superiority.—For an exceedingly compact Faradic Apparatus.

The Medal of Superiority.—For Galvano Cautic and Galvanic Apparatus.

Sessions of 1878-'79.

THE COLLEGIATE YEAR in this Institution embraces a preliminary Autumnal Term, the Regular Winter Session, and a Spring Session.

THE PRELIMINARY AUTUMNAL TERM for 1878-1879, will open on Wednesday, September 18, 1878, and continue until the Regular session. During this term, instruction, consisting of didactic lectures upon special subjects, and daily clinical lectures, will be given, as heretofore, by the entire Faculty. Students expecting to attend the Regular Session are strongly recommended to attend the Preliminary Term, but attendance during the latter is not required, *During the Preliminary Term, clinical and didactic lectures will be given in precisely the same number and order as in the Regular Session.*

THE REGULAR SESSION will begin on Wednesday, October 2, 1878, and end about the 1st of March, 1879.

FACULTY.

ISAAC E. TAYLOR, M. D.,

Emeritus Professor of Obstetrics and Diseases of Women, and President of the Faculty.

JAMES R. WOOD, M. D., LL. D.,
Emeritus Professor of Surgery.

FORDYCE BARKER, M. D.,
Professor of Clinical Midwifery, and Diseases of Women.

AUSTIN FLINT, M. D.,
Professor of the Principles and Practice of Medicine and Clinical Medicine.

W. H. VAN BUREN, M. D.,
Professor of Principles and Practice of Surgery, Diseases of Genito-Urinary System, and Clinical Surgery.

LEWIS A. SAYRE, M. D.,
Professor of Orthopedic Surgery and Clinical Surgery.

ALEXANDER B. MOTT, M. D.,
Professor of Clinical and Operative Surgery.

WILLIAM T. LUSK, M. D.,
Professor of Obstetrics and Diseases of Women and Children, and Clinical Midwifery.

WILLIAM M. POLK, M. D.,

Professor of Dermatology, and Adjunct to the Chair of Principles of Surgery.

J. LEWIS SMITH, M. D.
Clinical Professor of Diseases of Children.

LEROY MILTON YALE, M. D.,
Lecturer Adjunct upon Orthopedic Surgery.

A distinctive feature of the method of instruction in this College is the union of clinical and didactic teaching. All the lectures are given within the Hospital grounds. During the Regular Winter Session, in addition to four didactic lectures on every week day except Saturday, two or three hours are daily allotted to clinical instruction.

The Spring Session consists chiefly of Recitations from Text-books. This term continues from the first of March until the first of June. During this Session, daily recitations in all the departments are held by a corps of examiners appointed by the Faculty. Regular clinics are also given in the Hospital and in the College Building.

For the Annual Circular and Catalogue, giving regulations for graduation and other information, address Prof. AUSTIN FLINT, JR., Secretary, Bellevue Hospital Medical College.

PREFACE.

The present edition of the Medical and Surgical Directory of Iowa has been greatly condensed and much of the miscellaneous matter omitted. This condensation and omission meets the approbation of many of the leading physicians of the State. Much new matter has been added, making the work more complete in every respect. It is with pleasure that I acknowledge kindly and valuable assistance from the following named gentleman. The laudable desire upon their part to make the work reliable, regardless of local prejudices, has been a matter of great satisfaction.

CINCHO-QUININE.

Some years ago we were led to introduce to the medical profession the *combined alkaloids* of the Cinchona barks, under the name of CINCHO-QUININE. We believed that the exclusive use of the sulphate of quinia was due more to circumstances than to its intrinsic merit, and that the alkaloid *quinia* and *all the other bark alkaloids combined* would prove a more valuable febrifuge. This view is now endorsed by the extended experience of medical men. No single alkaloid has received the high encomiums bestowed on this combination.

DR. LANDON B. EDWARDS, of the Virginia State Board of Health, says that the success of Cincho-Quinine confirms what he has "long believed, namely, that the COMBINATION of the several cinchona alkaloids is more generally useful in practice than the sulphate of quinine uncombined." DR. FERDINAND KING, of Atlanta, Ga., in the *Southern Medical Record*, remarks: "In this combination we find the nearest approach to the original substance, Peruvian Bark, that modern science has yet attained." Hundreds of similar testimonials might be added.

CINCHO-QUININE, even in heroic doses, *produces no cerebral disturbance*, and this fact alone would give it a high place in *materia medica*.

It is *nearly tasteless*, an advantage that will be appreciated by every physician in the treatment of sensitive patients.

It is given in the *same doses* as the sulphate of quinia, and its *very low price*, compared with that agent, at the present time, must give it the preference on economical grounds.

It is, in brief, a *cheap, convenient, safe and effective* substitute for the sulphate of quinia in all cases, having all its advantages, and none of its disadvantages.

The manufacturers invite a *Trial* of CINCHO-QUININE, knowing that it will prove the *best possible testimonial* to its value.

P. S. We will be happy to send to any address circulars containing further evidence from those who have used it.

LACTOPEPTINE.

THIS PREPARATION which has the merit of being considerably cheaper than the best kinds of Pepsin, has been found by actual experiment to possess a decided and uniform solvent power, greater, weight by weight, than Pepsin as usually prescribed. It is a combination of Pepsin, Sugar of Milk, Pancreatine. Ptyalin, and Lactic and Hydrochloric Acids. We have administered Lactopeptine in a number of cases where Pepsin was indicated, and have been fully satisfied with the result. *New York Medical Journal, Feb. 1878.*

NEW REMEDIES.

Your special attention is called to the note below.

Quinine Flower.—Used in the south, during the late war to some extent as a substitute for quinine, and now introduced to the profession by us.

Yerba Beuma.—From the Pacific slope, now introduced by us. Used in diseases of the mucous passages, especially in catarrh, acute and chronic, leucorrhœa, gonorrhœa and dysentery.

Kava Kava.—From the Sandwich Islands. First introduced by us. An efficient and agreeable remedy in gonorrhœa, gleet, gout and rheumatism.

Cascara Sagrada.—Introduced by us. It has long been regarded by the residents of the Pacific Coast as a sovereign remedy for habitual constipation and dyspepsia.

Coto Bark.—From Bolivia. First introduced by us. It is said to be almost a specific against diarrhœa in its various modifications.

Coca Leaves.—A powerful nervous excitant, giving great vigor to the muscular system and sustaining the human frame under extreme physical exertion and fatigue.

Paraguay Tea.—Largely used in South America as a stimulant to sustain the system when undergoing hunger, or great fatigue during the summer heats.

Grindelia Robusta.—From the Pacific slope. Since this drug was first introduced by us it has earned for itself a reputation for almost specific curative action in asthma.

Guaco Leaves.—This valuable remedy was also first introduced by us. Its use is indicated in cholera, diarrhœa, chronic rheumatism, etc.

Berberis Aquifolium.—A new California drug, now introduced by us, possessing extraordinary powers as a combined alterative and tonic, and valuable in syphilitic and scrofulous diseases, salt rheum, etc.

Boldo Leaves.—First introduced by us. The new South American tonic. In France it has been employed in cases where quinine could not be tolerated.

Areca Nuts.—First introduced by us. From India. Strongly astringent. Used by Dr. Morris, of England, in the removal of tape worm.

Grindelia Squarrosa.—From California. First introduced by us. An excellent and efficient remedy in malarial diseases, enlarged spleen, etc.

Yerba Santa.—From northern California. First introduced by us. This drug is a standard remedy in the Western States in bronchial and laryngeal disorders.

Fucus Vesiculosus.—First introduced by us. An anti-fat remedy of great merit. No derangement of the stomach or general system seems to result from its use.

NOTE.—There are several false varieties of this plant, which are offered as genuine. Physicians will readily perceive the difference in the taste of the fluid extract, as compared with our preparation of the TRUE plant.

LACTOPEPTINE.

IN THE treatment of Infantile Diarrhœa produced by imperfect digestion, we have had the most satisfactory results from the use of Lactopeptine, also in cases of Impaired Digestion in old persons. This is one of the most valuable pharmaceutical preparations that has been placed in the hands of the profession. We take pleasure in attesting to its value from a considerable experience in the use of it.—*Cincinnati Lancet and Observer*, Jan. 1878.

CHAPMAN, GREEN & CO., Manufacturing Chemists,

—AND—

PHARMACISTS, . CHICAGO.

(Established at Hudson, Mich., 1865.)

TO THE TRADE:

Having removed our Laboratory and PERMANENTLY LOCATED in the great Commercial Centre of the West, Chicago, we again announce that we are prepared to fill all orders in our line, and guarantee our goods as second to none in the market.

We call especial attention to the following :

Nitrogenized Iron,

Manufactured only by Chapman, Green & Company.

NITROGENIZED IRON is a direct and perfect chemical combination of sesquioxide of Iron, Albumen and Soda, in supposed imitation of this metal found in the blood-corpuscles. The similarity of the albuminate of iron and soda, and the iron salt of the blood-corpuscles, is inferred from the associated constituents of the blood, the intense coloring power of iron combined with albumen, and apparent identity in proportions. In accordance with the analysis of healthy blood (REGNAULT;) the proportion of coloring matter is but two parts in one thousand by weight, and of this coloring matter (HÆMATOSINE) about six per cent, is supposed to be iron. The estimate of BECQUEREL and RODIER, which is higher, is little over $\frac{1}{2}$ a grain of iron to one thousand of blood, based upon this calculation, the color of the blood of an average adult is due to the presence of about 70 grains of iron, and taking in consideration that in the administration of this metal it is only required to REPAIR LOSS, that iron is always present in the system, even when deficient in the blood, and that loss of iron is always attended with inadequate supply of albumen, the small amount of this metal demanded for this purpose, and the importance of its assimilative condition is apparent. Each pint of the syrup contains 48 grains of salt, representing approximately 3 grains of sesquioxide of iron.

USUAL DOSE— One teaspoonful, increased at discretion to a dessert-spoonful.

CHAPMAN, GREEN & CO.'S

DETANNATED

Fluid Extract of Wild Cherry Bark, identical with that of the U. S. P., excepting it is deprived of its tannic acid and coloring matter.

Pepsin, with Wafer Ash.

Manufactured only by Chapman, Green & Company.

PEPSIN WITH WAFER ASH, is not an Elixir. It is prepared in pure **ANHYDROUS GLYCERINE**. It contains no alcohol; it is the most successful combination yet devised for the treatment of Dyspepsia, Gastralgia, Irritable or Inflammatory condition of the stomach. Is specially indicated in the diarrhœa of children, in vomiting of pregnancy, and in nursing sore-mouth.

Elixir Berberina and Iron.

Manufactured only by Chapman, Green & Company.

Associating Phosphorus and Iron with the alkaloid Berberina, the tonic principle of Berberis Vulgaris, Columbo and Hydrastis Canadensis, a very widely diffused alkaloid, specifically designated a muscular tonic.

This preparation is specially indicated in the exhausted and painful state of the muscles, (Myalgia,) frequently but incorrectly denominated rheumatism or neuralgia, in the lassitude and muscular relaxation incident to the summer months and warm climates, in jaundice and hepatic derangements, in convalescence from fevers, and in diarrhœa and dysentery, after suppression of the discharges.

Usual Dose, One Teaspoonful. Containing $\frac{1}{2}$ grain soluble Pyrophosphate of Iron and 1 grain Phosphate of Berberina.

Hemorrhoidal Lotion.

Iodine, Stramonium and Tannic acid. For discussing Hemorrhoidal tumors, both internal and external.

**EXTRACT OF MALT with COD LIVER OIL,
" " " HYPOPHOSPHITES,
" " " FERRATED,
" " " PEPSIN,
" " " HOPS.**

Also a full line of Fluid and Solid Extracts, Soluble Sugar Coated Pills, Elixirs, Wines, Syrups, Specific Tinctures, Resinoids, Powdered Extracts, Alkaloids, Plasters, Glyceroles, Cod Liver Oil Emulsions, Liquid Ergotine for Hypodermic use, Spirits of Nitre, Aqua Ammonia, and other Chemicals, &c.

Send for our Dose Book containing 150 pages, mailed free to any Physician.

FEE BILLS.

53

Office prescriptions	50 to 1.00
Obstetrical attendance, (ordinary cases).....	10.00

~~For~~ For all other medical or surgical services not mentioned in this bill, the charges shall be in the same ratio, this being determined by the relative responsibility of the services and the time occupied.

Visits made to several patients in the same neighborhood, shall be deemed regular visits to each individual, and shall be charged as such.

All bills shall be considered due when services are rendered, and it is recommended that all bills be presented quarterly. Uniformity in this respect is considered of great importance to the interests of the profession.

It shall be considered proper to make liberal deductions to all persons in indigent circumstances, or where the nature of the case seems to warrant such abatement.

For visits by railroad, from 50 cents to \$1.00 per mile, according to distance and time occupied.

It shall be considered dishonorable for any member of this Society to attend families or individuals by the year, or offer their services gratuitously to the public authorities, or to make any other bargain or arrangement the tendency of which will be to avoid the full purport and effect of the foregoing list of charges.

STATE CHARITABLE INSTITUTIONS AND HOSPITALS.

IOWA HOSPITAL FOR THE INSANE.

MOUNT PLEASANT, HENRY COUNTY.

Patients can only be admitted to the hospitals for the insane in this State upon the warrant of the Commissioners of Insanity of each county, a body consisting of a respectable practicing physician, and lawyer, and the clerk of the circuit court, who is also Clerk of the Commissioners. Application for admission should be made to the Commissioners, who are furnished with the proper blanks. All recent and urgent cases are received without delay, but when admission of cases of long standing is sought, the Superintendent should be apprised of the history and nature of the case before any steps are taken.

The hospital is under the control of a board of five Trustees, chosen by the Legislature, who hold their office for four years.

Connected with the hospital is a good farm of about 350 acres, from which all the vegetables and milk required for use are obtained, as well as much hay and fodder and grain for stock. The medical profession are cordially welcome to visit the hospital and inspect its workings.

The present medical officers are Mark Ranney, Superintendent; H.

M. Bassett, Jennie McCowan, Morris S. Guth, Assistant Physicians.

IOWA HOSPITAL FOR THE INSANE.

INDEPENDENCE, BUCHANAN COUNTY.

The Iowa Hospital for Insane at Independence, was opened May 1, 1873. Its proposed capacity 500.

OFFICERS.

—, Superintendent; G. H. Hill, Assist. Physician, appointed Dec. 1st, 1874.

IOWA INSTITUTION FOR THE DEAF AND DUMB.

COUNCIL BLUFFS, POTTAWATTAMIE COUNTY.

This institution was established at Iowa City by an act of the Legislature in January, 1855. In 1866, however, the Legislature located the institution permanently at Council Bluffs, and ordered a new building to be erected. It is situated about two miles southeast of the city of Council Bluffs. This was burned in 1877, a wing 100 ft. by 50 ft. was erected the same year, and an appropriation of \$40,000 was made to rebuild in 1878.

Rev. Benjamin Talbot, for many years teacher in the Ohio Institution for the Deaf and Dumb, occupies the position of Superintendent of the Institution, as also Secretary of the Board of Trustees. A Board of Trustees manage the institution, who are elected every six years by the Legislature.

All deaf and dumb children in the State of suitable age, are entitled to an education at the expense of the State—the Legislature appropriating for this purpose the sum of \$8,000 annually, and \$30 per quarter for each pupil.

OFFICERS.

President, Fred. Teale; Secretary, Benjamin Talbot; Treasurer, John Stubenrauch.

IOWA COLLEGE FOR THE BLIND.

VINTON, BENTON COUNTY.

This institution was established January 18th, 1853, and was opened for the reception of pupils in April, 1853. It is now managed by six Trustees, chosen by the Legislature. Eight thousand dollars per annum is appropriated for the support of the institution, and for the current expenses, so much as is necessary, not to exceed thirty-six dollars per quarter for each pupil.

All blind persons who are residents of this State, of suitable age and capacity, are entitled to an education in this college free of expense. Non-residents are admitted by paying to the Trustees the sum of forty dollars per quarter in advance; provided, however, that no non-resident shall be received to the exclusion of any resident of the State.

IOWA STATE ASYLUM FOR FEEBLE MINDED CHILDREN.

This institution was established by an act of the legislature passed during the session of 1875. It provides for the organization and support of an asylum at Glenwood, Mills county, for feeble minded children. The main object and design of this institution is the care, support, training, instruction and education of this unfortunate class of the youth of our State, not otherwise provided for in any of the other educational institutions. The act also provides for the appointment of a board of trustees, who are intrusted with the general government and care of the institution.

The State set apart for this purpose the property known as the "Western Branch of the Iowa Soldiers' Orphans' Home," the soldier's orphans having been removed to the "Davenport Home." This institution was opened for the reception of these unfortunates on the first Wednesday in September, 1876. An appropriation of ten dollars per capita is made by the State. A fifteen acre farm is connected with the institution, which not only furnishes supplies of vegetables, &c., for the table, but affords a valuable and pleasant occupation to a large number of the male pupils. There are now 102 pupils in the institution.

This recent act of humanity and charity on the part of a magnanimous State has become a success.

The thick veil of imbecility is becoming removed from the bedimmed, beclouded, and disordered intelligence of her unfortunate wards, and they are approaching the brightness of the perfect day.

OFFICERS OF THE INSTITUTION—TRUSTEES.

J. M. Hiatt, New Sharon, Iowa; D. M. Baker, Chariton, Iowa; E. R. S. Woodrow, Glenwood, Iowa.

IOWA SOLDIERS' ORPHANS' HOME, AND HOME FOR INDIGENT CHILDREN.

DAVENPORT, SCOTT COUNTY.

The greatest achievement of justice and gratitude ever displayed by a grateful nation was the establishment of Soldier's Orphan's Homes for the care, education and protection of the children of her dead citizen soldiery, and Iowa has the proud honor of being the first state in the Union to establish such Homes. It is said that Mrs. Annie Whitmeyer, at a gathering of ladies at Muscatine, Iowa, in 1863, was the first to suggest an "Iowa Soldiers' Orphans' Home." In that same year an association was formed, and the labor of mercy, justice and humanity commenced—not as an act of charity, but in grateful remembrance of the heroic dead.

Prior to the year 1866 the Homes were sustained by voluntary contributions, at which time the legislature made an appropriation and provided that the work be assumed by the State.

The Home at Davenport was organized in December, 1863, and opened at Farmington in 1864, but removed to Davenport in November, 1865.

The Home at Cedar Falls was opened September, 1865, through the efforts of Hon. Peter Melendy, and others, in a hotel. In October, 1869, it was removed to a new building erected for the purpose, with a capacity for three hundred children, with their attendants.

By act of the legislature of 1875, the Home at Iowa Falls was discontinued, and the inmates removed to Davenport. The rules of the Home now admit all orphans belonging to the State who may apply for admission through the supervisors of the several counties, according to Chap. 94, Laws of the Sixteenth General Assembly. The gentlemanly superintendent, S. W. Pierce, Esq., very aptly remarks in his report to the trustees:

"The expense of maintaining and educating dependent children here should not be felt a burden to tax payers, for they *must* be maintained somewhere; if not here, in the poor house, or, after a few years, in our penal institutions. That it is cheaper to prevent crime than to attempt to cure it, or that it would be cheaper to allow children to shift for themselves, no well informed person will assert. There should be a law prohibiting the sending of any child to the poor house. The poor house may feed and clothe children, but it fails to educate them or develop good citizens."

The trustees are to be congratulated upon obtaining the services of so kind and careful a manager of these waifs of Iowa's heroism and of her indigence.

MERCY HOSPITAL.

DAVENPORT, SCOTT COUNTY.

The following very interesting report was furnished by Prof. W. D. Middleton, M. D., one of the attending physicians.

This hospital was organized in December, 1869. It is under the care of the Sisters of Mercy, and is open for the reception of patients of all classes, irrespective of creed or nationality.

The institution now comprises a collection of four buildings, situated just outside the city limits, with adjoining grounds of thirty acres beautifully diversified and improved, and furnishing delightful surroundings for all who seek the advantage of such a retreat. The main building, (Mercy Hospital) is divided into three commodious wards and a number of elegantly furnished private rooms for the accommodation of invalids of various classes and conditions. Building number two, (St. Joseph) was built for the special accommodation of the insane after the most approved modern plans of asylums, and comprises four spacious divisions for this purpose. A visiting committee with powers similar to those of the committee of like character supervising the State asylums, make frequent investigation regarding the health and comfort of the inmates. Building number three, (St. Mary's Orphan Asylum) was finished last year, and is a beautiful, homelike, structure for the class whose maintenance and education was contemplated in its erection. Building number four, (St. John's) was built in a remote part of the

grounds by the city and county jointly for the reception of patients suffering from contagious diseases, and is one of the most completely arranged institutions of the kind, in a hygienic point of view, in the country.

In addition to the above Divisions, there is a Lying-in Department, which is under the care of nurses specially trained for its duties. The Sisters give their personal attention and undivided care to nursing the sick.

The terms for treatment, including board, washing, medicines, and medical or surgical attendance, is from \$6 to \$10 per week.

It is managed by a Medical and Surgical Board, which at present is composed of the following members:

Consulting Surgeons.—S. C. Plummer, M. D., and C. Truesdale, M. D., Rock Island.

Consulting Physicians.—J. J. Tomson, M. D., and A. S. Maxwell, M. D., Davenport.

Attending Surgeons.—W. F. Peck, M. D., R. J. Farquarson, M. D., and W. W. Grant, M. D., Davenport.

Attending Physicians.—W. D. Middleton, M. D., A. W. Cantwell, M. D., and C. H. Preston, M. D., Davenport.

House Physician.—C. M. Bell.

The meetings of the Board are held on the last Thursday of each month. The Hospital can accommodate about one hundred patients. The average number is about sixty, including those who are considered insane. Number of patients admitted since organization, about 1200. For any information relative to the Hospital, letters should be addressed to SISTER SUPERIOR, Mercy Hospital, Davenport, Iowa.

MERCY HOSPITAL.

IOWA CITY, JOHNSON COUNTY.

This Hospital was established in 1873, and opened for the reception of patients Oct. 24th of the same year. It is under the management of the "Sisters of Mercy." The Board of Directors consists of Professors W. S. Robertson, P. J. Farnsworth, W. D. Middleton, Gustav Hinrichs, and P. S. Mahan, M. D., consulting Physicians; Prof. W. F. Peck, J. B. Carleton, M. D., and A. C. Moon, M. D., Consulting Surgeons; Prof. J. C. Shrader, W. B. Moon, M. D., O. T. Gillette, M. D., Attending Physicians; Prof. E. F. Clapp, C. M. Hobby, M. D., and R. W. Pryce, M. D., Attending Surgeons.

The Hospital has accommodations for one hundred patients. All patients are treated gratuitously by the attending physicians and surgeons. Board, in the Hospital, is from \$6 to \$8 per week. About six hundred and fifty patients are admitted yearly.

Medical instruction is given, and clinics held, in the Hospital amphitheatre, five days in the week, during the medical term of the State University.

For information in relation to Mercy Hospital, letters may be addressed to "Mercy Hospital," Iowa City, or to E. F. Clapp, M. D., Secretary Board of Directors.

LAWS RELATING TO MEDICINE AND SURGERY.

LAW IN RELATION TO PRACTICAL ANATOMY.

Sec. 4017-4018-4019-4020, Code of Iowa, 1873.

If any person without lawful authority wilfully dig up, disinter, remove, or carry away any human body or the remains thereof, from its place of interment, or aid or assist in so doing; or wilfully receive, conceal or dispose of any such human body, or remains thereof; or if any person wilfully and unnecessarily, and in an improper manner indecently expose, throw away, or abandon any human body or the remains thereof in any public place, or in any river, stream, pond, or other place, every such offender shall be punished by imprisonment in the county jail not exceeding one year, or by fine not exceeding one thousand dollars, or by both fine and imprisonment.

Any coroner or undertaker in any county or city in which the population exceeds one thousand inhabitants, may deliver to any medical college or school, or any physician in this State, for the purpose of medical or surgical study, the body or remains of any deceased person, except where such body has been interred, or dressed for interment; but no such body shall be so delivered without the consent of the relatives or friends of such deceased person, if any such are known, nor where such deceased person expressed a desire during his last sickness that his body should be interred. If the body of any person who has been a resident of the county when death took place, for six months, is so delivered, and the same shall be subsequently claimed by any relative or friend of such deceased person, such body shall be given up to such relative or friend.

Any person who delivers or receives any body or remains, having knowledge that any of the foregoing provisions have been violated, shall upon conviction thereof, be punished as provided in the preceding section.

The person receiving such body, as contemplated in the preceding section, shall decently bury the remains thereof, after such body shall have been used as aforesaid, and in case of a failure to do so such person shall be deemed guilty of a misdemeanor, and punished by a fine of not less than ten nor more than fifty dollars.

The remains of any person received as aforesaid shall be used for the purpose of medical and surgical study alone, and in this State only, and whoever shall use such remains for any other purpose, or shall remove the same beyond the limits of the State, or in any manner traffic therein, shall be guilty of a misdemeanor, and shall, on conviction, be imprisoned for a term not exceeding one year in the county jail.

LAW IN RELATION TO PROFESSIONAL CONFIDENCE.

Sec 3643, Code of Iowa, 1873.

No practicing attorney, counselor, physician, surgeon, minister of the gospel, or priest of any denomination, shall be allowed in giving testimony to disclose any confidential communication properly entrusted to him in his professional capacity, and necessary and proper to enable him

to discharge the functions of his office according to the usual course of practice or discipline. Such prohibition shall not apply to cases where the party in whose favor the same are made waives the rights conferred.

LAW IN RELATION TO EXPERT TESTIMONY.

Sec. 3814, Code of Iowa, 1873.

Witnesses called to testify only to an opinion founded on special study or experience in any branch of science, or to make scientific or professional examinations and state the results thereof, shall receive additional compensation, to be fixed by the court, with reference to the value of the time employed and the degree of learning or skill required.

OFFENSES AGAINST PUBLIC HEALTH.

Chap. 10, Page 629 and 630, Code of Iowa, 1873.

If any person knowingly sell any kind of diseased, corrupted, or unwholesome provisions, whether for meat or drink, without making the same fully known to the buyer, he shall be punished by imprisonment in the county jail not more than thirty days, or by fine not exceeding one hundred dollars.

If any person fraudulently adulterate for the purpose of sale, any substance intended for food, or any wine, spirituous or malt liquors, or other liquor intended for drinking, he shall be punished by imprisonment in the county jail not more than one year, or by fine not exceeding three hundred dollars, and the article so adulterated shall be forfeited and destroyed.

If any person fraudulently adulterate for the purpose of sale any drug or medicine, in such manner as to lessen the efficacy, or change the efficacy of such drug or medicines, or to make them injurious to health, or sell them knowing that they are thus adulterated, he shall be punished by imprisonment in the county jail not exceeding one year, or by fine not exceeding five hundred dollars, and such adulterated drugs and medicines shall be forfeited and destroyed.

If any apothecary, druggist or other person, sell and deliver any arsenic, corrosive, sublimate, prussic acid, or any poisonous liquid or substance without having the word "poison," and the true name thereof, written or printed upon a label attached to the vial, box, or parcel containing the same, he shall be punished by imprisonment in the county jail not more than thirty days, or by fine not exceeding one hundred dollars. Any person who may dispose of at retail any poisonous substance or liquid to any one, for any purpose, is hereby required to enter in a book, to be kept by such apothecary, druggist, or other person so disposing, the name of the poison, when bought, by whom and for what purpose; and if the person who calls for such poison is not personally known to the vendor, then such person shall be identified by some one known to the vendor, whose name shall also be entered in such book. Any failure to comply with the requirements of this provision shall subject the party so failing to imprisonment in the county jail not more than thirty days, or to a fine not exceeding one hundred dollars.

If any person inoculate himself or any other person, or suffer himself to be inoculated with the small pox within this State, or come within this State with intent to cause the prevalence or spread of this infectious disease, he shall be punished by imprisonment in the penitentiary not more than three years, or by fine not exceeding one thousand dollars and imprisonment in the county jail not exceeding one year.

If any person wilfully sell, or keep for sale any intoxicating, malt or vinous liquors, which have been adulterated or drugged by admixture with any deleterious or poisonous substance, he shall be deemed guilty of a felony, and upon conviction thereof shall be punished by a fine not exceeding five hundred dollars, or by imprisonment in the penitentiary not exceeding two years.

If any person throw, or cause to be thrown, any dead animal into any river, well, spring, cistern, reservoir, stream or pond, he shall be punished by imprisonment in the county jail not less than ten nor more than thirty days, or by fine not less than five nor more than one hundred dollars.

If any person knowingly sell to another, or knowingly deliver or bring to be manufactured to any cheese or butter manufactory in this State, any milk diluted with water, or in any way adulterated, or milk from which any cream has been taken, or milk commonly known as "skimmed milk," or shall keep back any part of milk known as "strippings," with intent to defraud, or shall knowingly sell the milk, the product of a diseased animal or animals, or shall knowingly use any poisonous or deleterious material in the manufacture of cheese or butter, he shall, upon conviction thereof, be fined in any sum not less than twenty-five dollars nor more than one hundred dollars, and be liable in double the amount of damages to the person or persons, firm, association or corporation, upon whom such fraud shall be committed.

OFFENSES AGAINST THE LIVES AND PERSONS OF INDIVIDUALS.

Sec. 3864, Code of Iowa, 1873.

If any person, with intent to produce the miscarriage of any pregnant woman, wilfully administer to her any drug or substance whatever, or with such intent use any instrument or other means whatever, unless such miscarriage shall be necessary to save her life, he shall be imprisoned in the State prison for a term not exceeding one year, and be fined in a sum not exceeding one thousand dollars.

COW POX

OF BEAUGENCY.

Non-Humanized Vaccine Virus.

This Virus is the product of continued calf inoculations from the celebrated spontaneous case of Cow Pox discovered at *Beaugency*, in France, in 1866, *and has never passed through the human subject.* It is efficient, protective and safe, and less liable to complications than humanized virus.

6 Large Points, Double Dipped and Warranted Extra, \$1.50

ALL ORDERS MUST BE ACCOMPANIED BY REMITTANCE.

Five years' experience in the propagation of Animal Vaccine leads us to encourage the use of DRY-STORED VIRUS upon Ivory Points, as being better in all respect than crusts. It can be kept as long, and is much more free from animal matter.

When the capsule is opened, that which is not immediately used, should be put into a clean, dry bottle, corked tight, and kept in a dry, cool and dark place. If so kept, and used early, as directed, and should fail, a second supply will be sent on notification within ten days after the receipt of the first.

Virus from my stables can always be relied upon if used as directed. It is propagated from heifers of an age and condition that secures uniformity of product and the most vigorous and perfect development of vaccinal disease. All the processes of production are under my own personal supervision.

The Trommer Extract of Malt Company guarantee to the Medical Profession the excellent quality and absolute reliability of their Extract of Malt, and all its combinations.

Extract of Malt, with Cod Liver Oil.

First Proposed by Dr. F. H. Davis, of Chicago.

(See Transactions of American Medical Association, for 1876, page 176.)

Is presented to the medical profession, as an efficient, palatable and very stable combination, consisting of equal parts of the *Extract of Canada Barley Malt* and the best quality of genuine *Norwegian Cod Liver Oil*. Many parties take this preparation who cannot take the oil in any other form. It may be employed in all cases where Cod Liver Oil is appropriate, but is peculiarly adapted to those complicated with disordered digestion.

Extract of Malt, with Cod Liver Oil and Phosphorus.

Consists of equal parts of Extract of Malt and pure fresh Norwegian Cod Liver Oil, Phosphorus being added in the proportion of 1-100 grain to the dose, and so combined, as to be perfectly protected from oxidation. The *Trommer Extract of Malt Company* prepare this combination agreeably to the suggestion of *Dr. Wilson Fox*. It is specially adapted to cases of phthisis, bronchitis, pernicious anaemia, and diseases of the nervous system.

Extract of Malt, with Cod Liver Oil and Iodide of Iron

added to the proportion of one grain to the dose. This combination is intended to meet those cases where the physician desires to add a more energetic alterative and restorative to the treatment with Cod Liver Oil and Extract of Malt. The manufacturers have received numerous letters from prominent physicians referring to it in terms of high praise.

Trommer's Extract of Malt.

The rapidly increasing demand for our IMPROVED EXTRACT OF MALT, during the four years that it has been manufactured and offered to the medical profession in America, justifies the belief that in its production here we are meeting a generally felt want.

Long experience in manufacturing Malt Extract has enabled us to completely overcome the many difficulties attending its manufacture in large quantity; and we positively assure the profession that our Extract of Malt is not only perfectly pure and reliable, but that it will keep for years, in any climate, without fermenting or moulding, and that its flavor actually improves by age. Our extract is guaranteed to equal, in every respect, the German make, while, by avoiding the expenses of importation, it is afforded at less than half the price of the foreign article.

The Malt from which it is made, is obtained by carefully malting the very best quality of selected Toronto, Canada Barley. The Extract is prepared by an *improved process*, which prevents injury to its properties or flavor by excess of heat. It represents the soluble constituents of Malt and Hops, viz, MALT SUGAR, DEXTINE, DIASTASE, RESIN AND BITTER OF HOPS, PHOSPHATES OF LIME and MAGNESIA, and ALKALINE SALTS.

Attention is invited to the following analysis of this Extract, as given by S. H. Douglass, Professor of Chemistry, University of Michigan, Ann Arbor.

TROMMER EXTRACT OF MALT CO.—I enclose herewith my analysis of your Extract of Malt;

Malt Sugar 46.1; Dextrine, Hop-bitter, Extractive Matter, 23.6; Albuminous Matter (Diastase), 2.469; Ash—Phosphates, 1.712; Alkalies .377; Water, 25.7; Total, 99.958.

In comparing the above analysis with that of the Extract of Malt of the German Pharmacopoea, as given by Hager, that has been so generally received by the profession, I find it to substantially agree with that article.

Yours Truly,

SILAS H. DOUGLASS.

Prof. of Analytical and Applied Chemistry.

This invaluable preparation is highly recommended by the medical profession, as a most effective therapeutic agent, for the restoration of delicate and exhausted constitutions. It is very nutritious, being rich in both muscle and fat producing materials.

The very large proportion of *Diastase* renders it most effective in those forms of disease originating in *imperfect digestion of the starchy elements* of food.

A single dose of the Improved Trommer's Extract of Malt, contains a larger quantity of the active properties of Malt, than a pint of the best ale or porter; and not having undergone fermentation, is absolutely free from alcohol and carbonic acid.

The dose for adults is from a dessert to a tablespoonful three times daily. It is best taken after meals, pure, or mixed with a glass of milk, or in water, wine, or any kind of spirituous liquor. Each bottle contains 1½ lbs. of the extract.

Our preparations of Malt are for sale by Druggists generally throughout the United States and Canadas, at the following prices.

THE BEST IN THE MARKET.

PARKE, DAVIS & CO.'S

IMPROVED

Empty Capsules.

Administration.—Capsules can be applied to the administration of any class of medicines, either simple or in combination; yet they are especially designed for facilitating the act of swallowing such articles as *powdered roots* and *gums* (which, from their insoluble or glutinous nature, are liable to linger in the mouth too long), or for disguising the taste of *quinine*, *morphine*, *capsicum*, *oils*, *fluids* and *solid extracts*, etc.

Our Capsules are put up in neat sliding paper boxes, containing 100 each, for which we charge fifty cents each. *We mail a box to any address on receipt of the price and three cents postage.*

EXTRACT MALT,

FROM THE LABORATORY OF
PARKE, DAVIS & CO.,
DETROIT.

Prepared from fresh Canada barley Malt of choicest quality.

Dose, two to four drachms, three times a day, which may be administered undiluted, or with Milk or Wine as preferred.

WE HAVE devoted considerable attention and experiment to our extract of malt, and have, we believe, developed a really valuable article, which we offer wholly on *its own merits*. Great care is exercised in the selection of the malt, and in the careful use of heat in preparation.

The properties of this remedy are due principally to the principle diastase (which has the power of changing the insoluble starch to the soluble maltose) as well as the nutritive elements. Its use is indicated in certain forms of dyspepsia (amylaceous), phthisis, bronchitis, asthma, loss of appetite, chronic rheuma, debility of females and the aged, and in convalescence from exhausting diseases, etc.

We offer the following combinations of Malt Extract put up in pint bottles each containing one and a-half pounds of the preparation. Specify "Parke, Davis & Co.'s" on your prescriptions.

EXTRACT MALT.—Prepared after the formula of the German Pharmacopoeia.

EXTRACT MALT with LACTO PHOSPHATES. The lacto-phosphates offer the necessary mineral constituents of the human system in an easy assimilable form. Combined with extract malt they make a preparation of much value in diseases of impaired nutrition, as in dyspepsia, brain troubles, diseases of the bones, phthisis, etc.

EXTRACT MALT with PEPSINE and LACTO PHOSPHATES. The combination of pepsine with lacto-phosphate lime and extract malt affords an agreeable, convenient and most effective remedy in all diseases characterized by impaired nutrition, whether the fault be due to weakness of the digestive organs, or to wasting diseases.

EXTRACT MALT with ALTERNATIVES. This preparation is a combination of the most powerful alteratives known to medical science, and is recommended in all cases where such treatment is indicated, as in scrofulous and syphilitic affections, skin diseases, glandular complaints, and diseases of the bones and cartilages.

EXTRACT MALT with CASCARA SAGRADA. Cascara Sagrada is a most effectual remedy in habitual constipation, and in combination with extract malt affords a valuable agent in dyspepsia accompanied with this troublesome symptom. It is recommended to use small doses—say two drachms—of this preparation four times daily for a period of two or three weeks.

EXTRACT MALT with CASCARA SAGRADA and BERBERIS AQUIFOLIUM. The tonic and alterative powers of the berberis combined with cas-

cara and extract malt, offers a preparation indicated in habitual constipation and dyspepsia, (when the food is thrown up), especially when these affections are found scrofulous or syphilitic patients.

EXTRACT MALT with COD LIVER OIL. An elegant emulsion of cod-liver oil, combining the healing and nutritive properties of both agents.

EXTRACT MALT with BEEF, IRON and WINE. This preparation combines the digestive and nutritive properties of malt and beef with the stimulating powers of the wine and iron.

EXTRACT MALT with the IODIDE PHOSPHITES. More effective than any other preparation of the hypophosphites for the diseases in which they are indicated.

EXTRACT MALT with HOPS. Adds to the tonic and sedative power of hops.

EXTRACT MALT with IODIDE COMPOUND. Of great value in anæmic conditions incident to syphilitic, scrofulous, cancerous, and tuberculous affections.

EXTRACT MALT with PROTOCHLORIDE IRON. A valuable and easily assimilated tonic, used largely for anæmia.

EXTRACT MALT with PEPSINE.

EXTRACT MALT with PEPSINE and BISMUTH.

EXTRACT MALT with PEPSINE and STRYCHNIA. The combinations of malt extract with pepsine, bismuth and and strychnia are useful in the different phases of dyspepsia, chronic diarrhoea, debility, nervousness, etc., as indicated.

EXTRACT MALT FERRATED.

EXTRACT MALT FERRATED with QUININE. Pyrophosphoric acid and quinine, in certain cases, of value in combination with
